

How to prepare for your appointment and fee schedule

Welcome!

*Our Promise: Although it is impossible, and we do not and cannot ever give any guarantees about the outcome of any single treatment, protocol or course of treatments that we provide, **we will be sincerely dedicated and make every possible effort to the maximum of our capabilities to assist you as speedily as possible.***

Please check that you have received the 3 pages of this document. If you have not received all 3 pages of this document, please contact the Clinic to request them again.

PREPARING FOR YOUR APPOINTMENT

1. Please return the Patient Medical Information Form to the Clinic by email (preferred), fax or post, prior to your appointment. The earlier you can return this information, the better we can allocate appropriate time and be prepared for your appointment.
2. Prior to your appointment, you can also forward to the Clinic your printed pathology test results (blood tests, etc.), and radiology and sonography **printed reports only**.
3. Please bring with you the **films** and/or **CDs** of your radiology and sonography scans, on the day of your appointment. The **CD** of any radiology and sonography scan can normally be requested from the hospital or pathology facility where the scan was performed.
 - If you post items to the clinic, **please only use registered or express post** and retain the tracking number of each item.
4. If you have not posted these medical records in advance of your appointment, then **please bring them with you on the day of your appointment**. Bringing this information with you might be very important to make a comprehensive assessment during your appointment.
 - All of your medical records are stored securely. Please request and read our Privacy Policy for more information.
5. For your appointment, **please wear or bring with you loose comfortable clothing or pajamas of natural fiber**; you will be able to change at the Clinic in private if you need to. Static electricity from synthetic clothing can interfere with our diagnostic procedures.
6. Please be ready to remove all metal from your body, including the following items:

watch, jewelry, all rings if possible, body piercings if possible, bras with metal underwire, belts with buckles, etc. If rings or body piercings cannot be physically removed then these will be taped over temporarily with a very small electronic component at the Clinic, which will be removed completely before you leave and will not damage the metal item in any way.

7. Please do not use any skin moisturizing or tanning creams on the day of your appointment.
8. Please bring all of your current medications and other supplements that you are taking; please bring **the actual tablets, powders, liquids and capsules**, not only their containers.

We aim to and do generally run on time, and make concerted efforts to do so. However, medicine and health are complex matters, and because not everything and every eventuality can be predicted in advance, we request your patience and respect if you have to wait for your appointment. Equally, please be assured that if we need extra time in order to complete the planned consultation and determine the best suggested course of treatment for you, you will also receive this extra, full attention.

FEES

We are a zero subsidized, highly specialized, privately run facility. The Clinic uses and maintains a unique set of advanced diagnostic equipment unavailable anywhere else in Australasia and wider area. There are considerable costs involved in the purchase and maintenance of this equipment. The fees of the Clinic reflect the costs of operating in its unique situation.

Fee schedule effective from 01 March 2020

Fees must be paid in full on the day of the appointment.

Consultation Fees are based on rounded-up, quarter hourly rates and include both Richard Malter's fees and the second Assistant Practitioner working with him:

- **Consultation Fee Hourly Rate** that may include examination and treatment applications: \$205.
 - The **Consultation Fee Hourly Rate** is also applied for preparation, monitoring and evaluation performed during the course of an **Extended Treatment** in the Clinic, and only with prior explanation and your consent. An **Extended Treatment** will not normally be performed during a first appointment.
- If performed, an **Extended Treatment** in the Clinic is charged at an hourly rate of \$45-\$75, depending on the type of treatment.
- For some involved medical conditions, such as but not limited to diagnoses of cancers, extra, short-lifetime laboratory test sample costs are incurred by the Clinic. In these cases, an additional, **Test Kit Fee** will be added to the total fees on the day of your appointment: \$25-\$65.

- **Radiology Study Assessment:** \$695.
- **Oral Supplement Prices** if given, only with full prior explanation and your consent: prices are specific to product. All retail supplements purchasable in Australia are given below RRP.
- **Other Items** if given, only with full prior explanation and your consent: medical tape, electromagnetic shielding items, etc.: prices specific to the product.
- A 1.5% surcharge is added to all credit and debit card payments of the above fees.

CONSENT TO PAY FEES AS SET OUT ABOVE

I, [PRINT NAME:]., hereby confirm that I have read and understood the above information concerning the fees of the Electromedicine Clinic and have had all my questions about these fees answered to my satisfaction by the staff of the Electromedicine Clinic, and that should I have an appointment and/or become a patient and/or receive any other provision of service of the Electromedicine Clinic, I consent to pay the fees as given above in full on the day of my visit(s):
